THURSDAY February 14

Washington State officials have declared an emergency re: recent Measles outbreak.

The best defense to avoiding the measles is being up-to-date with MMR vaccination. Any questions regarding the measles or your child's immunizations should be directed to your health care provider. There have been no reported cases of measles in Lewis County as of this date.

Thank you for the privilege of being your Principal. As always, please give me a call if you have any questions. (360) 748-7029 dallasl@adnaschools.org
