

Mr. Gosman Middle School

Moving forward into the fourth quarter there are two units that need to be covered. The online course work uses Khan Academy and work will be assigned and graded. Grades will be assigned on a pass/fail basis. To earn a passing grade students need to do the following:

1. Complete all assigned tasks.
 - a. Watch all videos.
 - b. Complete all exercises, reviews and quizzes with at least a 60%.
 - i. Reviews and quizzes can be repeated.
2. Score at least a 60% on the unit test.

Students will have one retake opportunity to pass a test.

Student Progress will be monitored daily and I will be available for guidance/help via email. It is also possible to set up a video conference using Zoom. I have set a tentative due date of May 1 for the first Unit and the second Unit due date will be the last day of school. I suggest that you spend 30-45 minutes each day working on this, but you can set your own pace.

Links for the first unit.

MATH 8: www.khanacademy.org/join and enter your class code **9JEQ5V75**.

Algebra 1: www.khanacademy.org/join and enter your class code **94ZY3RQZ**

After joining the class check for a Notification (look at your username in the upper right corner) that you have been accepted into the class.
