**HIGHLY CAPABLE EDUCATIONAL PROGRAM**

Adna provides a Highly Capable program for qualified students. Students in grades kindergarten through twelfth are annually given a screening test (CogAT 7). Parents of students who qualify for further testing will be notified to obtain permission for evaluation.

In addition, teachers, parents or students can nominate a student for the program. Nomination forms are available from the principal. Multiple factors, including assessment data, are used to determine eligibility. A Highly Capable Program selection committee makes the final decision. If you have questions or need a nomination form, please contact your student’s principal.
Mt. Saint Helens
On September 20th forty third graders went on our annual field trip to Mt. Saint Helens. The students were able to learn about the eruption of the mountain and how it affected the geography of our state and how the land has recovered.
