The Adna School District is eager to share with you the exciting news that we plan to add onto Adna Middle/High School.

We plan to add a full size gymnasium and 2 additional classrooms that will be attached to the middle school wing. The additional gymnasium will provide classroom space and game/practice space for middle school PE classes and sports teams. The additional gym will also provide space for community teams to practice, taking scheduling stress off of the HS and AES Gyms. The two additional classrooms will provide needed classroom space. One of the classrooms will be a dedicated STEM (Science, Technology, Engineering, Mathematics), providing a technologically advanced room to challenge our students.

The total cost of the additions will be approximately $2.5 Million. The Adna School District will pay for this project by using money received from Federal/State relief grants, timber revenue, and revenue that have been saved in our reserves that can only be used towards construction/remodeling. No additional taxes will be levied or charged to our community for this project. This project is possible because the School District has been economically responsible and looking towards the future needs of our schools and community.
Emergency Closure Notification - The District uses a variety of media to inform parents, students and staff of emergency school closures and delays. These include television, radio, the District website, email, automated phone messages and optional text messaging. For additional information contact the school offices.
